## A THIRD EDICT.

The Governor of Alabama Proclaims Against the Prize Fight.

The Mound Creek eanal company of The Manager of the Contest Says There Was Never Any Prospect of Fighting in Alabama.

> Sullivan On His Way South as Tough as Leather and Ready for the Fray-Dallas Ready to Play Ball Again-

Another Proclamation.

Special to the Gazette. NEW ORLEANS, La., July 2 .- A third proclamation was issued this evening against the Kilrain-Sullivan prize fight. The latest prohibit comes from Governor Seay of Alabama, who has taken steps to stop the fight in that state. The Weatherford, Mineral Wells and The governors of Louisiana and . R. Stone of Kansas City, Austin Kerr | and because it had been reported that in Mineral Wells, a distance of twenty-five ham, in that state , telegraphed to-day to W. H. Holcomb, sheriff of Mobile foreign corporation act goes into effect. The governor says in his telegram prize fighting is a felony in Alabama. Take such precautions as you deem necessary to prevent or punish, I will pay any extra expense. Sheriff Holcomb telegraphed back that he would obey the order of the governor to the letter. The law of Alabama prohibiting prize fighting, referred to in the

Section 3770, Revised Statutes, prize fighting-Any person who, as principal, engages in any prize fight or pugilistic encounter for a money reward to the victor, must, on conviction, be imprisoned in the penitentiary not more than three or less than one year.

The third proclamation did not seem to discourage the prize fight managers in the least. Indeed there was never any prospect of fighting in Alabama, and levernor Seay's precautionary order was die, probably, to the fact that the manher of the fight is a Mobile man. Mobile County, Ala., is the only county in the state which can be readily reached by rail that is within the 200-miles limit of Hayti to the United States are in receipt | New Orleans required in the agreement | for the fight.

> Sullivan as Fine as a Fiddle. CLEVELAND, OHIO, July 2 .- The

special train of three cars having the Sullivan party from Rochester, N. Y. to New Orleans, came into Cleveland over the Nickel Plate tracks early this morning. It was made up of two Wagner parlor coaches and a baggage car. There was only a small knot of people in the depot to meet the train, Muldoon, Carl Johnson and Jim Wakeley came out during the wait, caused by the transmission of orders from the Nickel Plate depot to the Bee Line yards, that the train was to be switched to the Bee Line tracks. During the few minutes stop Muldoon chatted about Sullivan, the coming fight and condition of his charge

as follows: "I have no idea where the mill will be. It is not my business to discuss that. Johnson or Wakely know more about that part of the business than I do. It's their money that is behind them. Sullivan is asleep and has not been awakened since we left Dunkirk. 1860 Mr. Hanks was closely associated | He will go into the ring next Monday as with Abraham Lincoln in farming, trad- | fine as a fiddle, and better able to fight

A Change of Programme.

NEW YORK, July 2 .- A New Orleans special says there were important changes in the arrangements for the Sullivan-Kilrain fight yesterday. Only the immediate representatives of the pugilists know the programme. Should t become common property the chances for a fight would be seriously impaired. It is stated by those in control of the arrangements that no one who pays \$10 for a ticket will be excluded from witnessing the battle. Yesterday morning Bud Renaud received a telegram from Capt. J. T. Jamison of Meridian, Miss., saying he would accept Renand's terms and bring twenty men with Winchester rifles to preserve order at the ring. Capt. Jamison is a noted character in the South, and his company recently quelled ceedingly hot fight. Renand has every preserve order, and everybody here becrowd to break into the fighting square lives will be sacrificed. It is this knowledge of a thorough determination to see fair play that is relied upon to hold the desperate element in check. Renaud's four hundred, or those who are expected to pay \$15 each for tickets to be spectators from the inner ring, are popularly supposed to be men who would under no circumstances interfere with the fighters. Capt. Jamison's men will be placed in the outside ring to hold the \$10 crowd in check. Only the referee, seconds, umpire and bottle holders, and perhaps half a dozen picked men, will be allowed in the small inclosure around the battle ring and in front of the spectators of the inner ring. If, however, an outbreak should occur among the members of Rud's 400, and it is a well known fact in New York that even 400 do not always agree, there would be little or nothing to prevent a shower of leaden balls that would stagger a Ward McAllister or a Stuyvesant Fish. Renand expects that there will be about two thousand five hundred spectators at the fight. Other judges estimate the size of the crowd at 3500, and some of the sports place the number at 5000. Renand's figures will probably be found most correct. In this crowd nine men out of every ten will carry fire arms, and they are men who can handle "guns" as easily as a boy can spin a top. Wherever a coterie of sports is gathered the "gun" subject is discussed. There is an under current of apprehension that should things go wrong there will be a fusliade of bullets. Renand and the "old timers" say there will be no disturbance, and that the affair will be as peaceful and as joyous as

His general appearance indicates that he is in the best of health. The chances seem strongly in his favor. John himself is confident of victory if the fight is fairly conducted, and it is evident that he will make a hard fight for his opponent.

When he came out of the gymnasium at 7:30 this evening, after spending three-quarters of an hour there in exercising, he entered a carriage and accompanied by Muldoon, and was driven to the Burnet house. An excited crowd that thronged Vine street followed him to the hotel and crowded around the carriage, eager to catch a glimpse of the champion. He entered the Burnet honse and went at once to his room. About 8 o'clock there was a call for three bottles of ale. About the hotel comparative quiet reigned. There were very few in the office and corridors besides guests. The crowd on the sidewalk lingered for about an hour in trent of the hotel, but finally disappeared, as there seemed to be no further opportunity of seeing Sullivan.

Mr. D. B. Johnson, sporting editfor o the Cincinnati Commercial Gazette, who spent some time with Sullivan at his training grounds about ten days ago, and who will accompany him in the morning, was with him most of this afternoon. Mr. Johnson says their special will leave the Grand Central depot at 7 to-morrow morning for New Orleans on the Queen and Crescent route. They expect to arrive at their destination at 11 o'clock Thursday morning. At the Burnett house this afternoon Sullivan was shaved and had his head shampooed. At 9 o'clock tonight he retired, and for an hour before refused admittance to all cailers. People who saw him this afternoon and those who merely caught a glimpse of him remarked his apparently perfect physical condition, notably an unusual clearness of the eye. Late this evening there was a disposition to increase the betting, although the odds offered in his favor were much greater.

Walting for the Pugilists. NEW ORLEANS, LA., July 2.-This has been a dull day in prize fighting circles. All are anxiously awaiting the coming of the principals. The proclamation of Governor Lowry will not intera bloody riot near Meridian after an ex- rupt the progress of arrangements for the prize fight. Telegrams continue to come confidence in the captain's ability to | in from all parts of the country and indicate that visitors may be expected from lieves if any attempt is made by the all parts of the country. Arrangements for formally receiving the pugilists were being discussed, but the friends of both parties prefer that no demonstration should be made until the battle is over. A party of individual members of the Young mens' gymnasium club have, however, decided to go out and meet Sullivan. Mr. Barnett says Sullivan will probably Friday, Mr. Stevenson does not look for Kilrain Bere until Saturday, although he may arrive Friday evening. He says Kilrain will be provided with quarters up town instead of going to the West End as at first proposed. The battle ground has been definitely settled upon and no interference is anticipated.

Governor Seny's Telegram. MOBILE, ALA., July 2 .- Sheriff Hol-

come received the following this morning from Governor Seav of Alabama: BIRMINGHAM, ALA.—Sheriff of Mobile county: Do not let the prize fight come off in Mobile county. It is a felony. Take such precautions as seem necessary to prevent or punish. I will pay any extra expenses.

A Weatherford Man in Luck. A reporter of the Constitution having learned that Mr. L. M. Frey had received the cash (\$5000) on ticket No. 38,847, which he held in the Louisiana State Lottery, and of which he made mention at the time of the drawing, called on Mr. Frey for confirmation of the report. Mr. Frey cheerfully did so, and added that the ticket was collected by the First National bank of this city collected by the First National bank of this city for him without exchange. We have often wondered if the reports of the character of men who have hitherto drawn prizes in the Louisiana State Lottery were as claimed, these prizes always appearing by the newspaper reports to fall into the hands of monest, hard working and deserving men. If they are to be judged by Mr. Frey they have all consists deserved the prizes, for there is no more substrious, enterprising and deserving a man, to Veatherford than Mr. L. M. Wheat Opened Lower, Fluctuated Widely and Markets Unchanged.

Daily Reveiw. OFFICE OF THE GAZETTE, FORT WORTH, TEX., July 2, 1889. There has been but little sunshine today, and the clouds have been threatening rain since morning. Already the ground is thoroughly saturated with water. Crops are at a standstill, and the roads throughout the county are such that there is but little trade between city

Business has been light in all branches, and will continue so as long as the present weather lasts. The wheat that has been harvested can not be brought in, and in consequence there is little doing in that line. Hides and feed stuffs are dull, and country produce barely

In his final report, made just before his being superceded United States minister to Japan, Mr. R. B. Hubbard reports that the exports of Japan during 1888 amounted to 65,000,000 yen, and the nearly equal to 75c. The United States which Japanese exports go, with France
